THIRD-PARTY SPECIAL NEEDS TRUST INTAKE **QUESTIONNAIRE**

Explanation: The purpose of a "special needs trust" (SNT) is to hold money or other assets of a person with disabilities (the "Beneficiary") that would disqualify that person from receiving SSI or Medicaid benefits. Assets held in a properly drafted and administered SNT will not be counted as resources by those programs. Payments made from such trusts directly to the Beneficiary or for the Beneficiary's food or "shelter" (rent or mortgage payments, utilities, property taxes, garbage or sewer fees) will be treated as income to the Beneficiary, and therefore must be limited so as not to exceed the income limits of the SSI or Medicaid programs. Payments from the SNT for any other purposes (for example, home repairs, maintenance or improvements; home furnishings; purchase, repair, or modification of a motor vehicle; therapies; recreation; clothing; entertainment, etc.) will not affect the Beneficiary's public benefit payments.

Third-Party SNT: An SNT may be created by the Beneficiary's parents, spouse or anyone else who wishes to establish a fund for the Beneficiary. Once created, the SNT is in place to receive gifts (made during lifetime or by bequest under a Will) from anyone who wishes to provide long-term assistance to the Beneficiary. The assets in this type of trust will be used for the Beneficiary's needs during his or her lifetime, and the assets remaining in the trust at the death of the Beneficiary will be distributed to the persons and in the manner described in the trust (such as other children or family members of the Settlor or charities). This type of trust, called a "third-party" trust, does not have to provide for any payback to Medicaid, thus permitting all the trust assets at the death of the primary Beneficiary to be distributed to the designated remainder beneficiaries.

This type of SNT is unlike a "self-settled" trust, into which the Beneficiary puts his or her own money or assets and which, by law, must provide that, at the Beneficiary's death, Medicaid will be first in line to recover from the trust assets the amount Medicaid has paid for the Beneficiary's medical care. Such "self-settled" trusts are created to hold the assets already owned by the Beneficiary or that the Beneficiary is to receive through a lawsuit settlement, inheritance or life insurance settlement.

The information requested in this form is necessary for us to prepare a third-party Special Needs Trust most appropriate for the needs of the Beneficiary. If the Beneficiary owns or is entitled to receive assets in his or her own name.

5. Distributions After Beneficiaries Death

The SNT should direct that, following the death of the Beneficiary, the assets remaining in the trust will be distributed to named individuals or organizations or held in trust for young remainder beneficiaries (such as grandchildren) until certain ages. If such assets may be left to minor or disabled remainder beneficiaries, it is advisable to leave their shares in trust for them in order to prevent the need for a court-ordered guardianship. You may also allow the Beneficiary to decide who will receive the assets remaining in his or her trust by naming them in his or her Will (if the Beneficiary does not have a valid Will at his or her death, then the assets will pass to persons as otherwise designated in the trust document). Please name or describe below the persons to whom you wish any remaining assets distributed at the Beneficiary's death.
